Dimensions	See drawing											
Pressure Rating	250 psi											
Material	DuPont Delrin (Acetal Homopolymer)											
Maximum Service Temp., Intermittent	300°F											
Maximum Service Temp., Long Term	185°F											

Features

- Great way to solve a liquid level detection problem in tank applications.
- Installation is simple and your sensor can be changed without emptying your tank.
- Durable Delrin material ensures long life-time and reliable performance in the toughest environments.
